

INNOVATIONS IN MEMBRANE TECHNOLOGY

Hydranautics and parent company Nitto Denko have 3 state-of-the-art production facilities and 2 research and development facilities dedicated to achieving the highest standards of RO (reverse osmosis), NF (nanofiltration), and UF (ultrafiltration) membrane products. Hydranautics/Nitto Denko sets industry standards for unique membrane chemistry, technical excellence, product quality, and personalized customer and technical service.

**Hydranautics/Nitto Denko has registered
28 patents since 1992...nearly 3 times as
many as our closest competitor.**

At Hydranautics/Nitto Denko our Focus is on the Film.

Let our complete line of RO, NF and UF membrane products solve your most challenging water treatment and special process separations needs.

**Innovation. Flexible Solutions.
Real Relationships. Global Responsibility.
Unwavering Integrity.**
