

## **PRESS RELEASE**

### **Hydranautics Sets New Europe/Middle East Leadership**

Oceanside, CA...Hydranautics, the world's leader in membrane technology, announces three new positions within their European and Middle East organization.

Water industry veteran and long-time Hydranautics team leader Larry Pelegrin now serves as the European/Middle East Vice President of Strategic Business Development. He will focus on growing the Global Membrane Division while assisting the European sales management team. He is joined by colleagues Sandro Cioffi as the EU/ME Sales Director for Base Business & Distributor OEM's and Santi Talo as EU/ME Sales Director for Projects. This fresh approach reflects Hydranautics' philosophy that businesses must evolve in order to remain relevant in their industry, constantly creating new value within their field of expertise. The new leadership team of Mr. Pelegrin, Mr. Cioffi and Mr. Talo sets a new standard for technological knowledge and best business practices in the Europe/Middle East region.

Hydranautics was founded in 1963 and entered into the reverse osmosis (RO) water treatment field in 1970. In 1987, Hydranautics became part of Nitto Denko Corporation, a multi-billion dollar corporation headquartered in Osaka, Japan. Hydranautics is headquartered in Oceanside, California with sales offices worldwide. Hydranautics manufactures reverse osmosis, nanofiltration, ultrafiltration and microfiltration membrane products for water treatment applications around the world. Membranes are either spiral or capillary configuration and available in a variety of diameters and lengths to meet a wide range of applications.
