

## FOR IMMEDIATE RELEASE

### Hydranautics participates in IFAT India 2019

IFAT India is India's leading trade fair for Water, Sewage and Waste Water Management. We are proud to announce our presence at the event from 16-18 October. You will find us at the Bombay Exhibition Center, Mumbai at booth D21 / Hall 1.

Let us show you our newest products and latest innovations which can enhance water reliability and quality. Feel free to engage with our teams at our booth and at various platforms during the event including the Active Learning Center, Buyer-Seller Forum and Innovation Exchange where we can help you deliver innovative and tailored solutions to meet your project's unique demands.

For more information on Hydranautics, please call us on 1-800-CPA-PURE, visit [membranes.com](http://membranes.com) or send an e-mail to [hy-info@nitto.com](mailto:hy-info@nitto.com). We look forward to seeing you at the event!

#### About Hydranautics

Hydranautics is a part of the Nitto Group and one of the global leaders in the field of Integrated Membrane Solutions. Hydranautics offers complete membrane solutions like Reverse Osmosis, Nanofiltration, Ultrafiltration, and Microfiltration for Water, Wastewater and Process treatment and applications. Hydranautics' membrane based solutions are currently in use on seven continents throughout the world for diverse applications such as Seawater Desalination, Industrial High-Purity Water, Surface Water Treatment, Waste Water Treatment, Specialty Process Applications etc. Our Global Membrane Division is headquartered in Oceanside, CA, USA and we have 3 state-of-the-art manufacturing sites located in Oceanside – USA, Shiga – Japan and Shanghai – China. For further information on Hydranautics kindly visit our website [www.membranes.com](http://www.membranes.com)

#### About Nitto

Nitto is Japan's leading diversified materials manufacturer. Founded in 1918, Nitto's strength is the ability to add diverse functionality to sheets, films and other materials using core technologies such as polymer synthesis, adhesion and coating technologies. The group offers over 13,000 high value specialty products worldwide including optical films for liquid crystal displays, automotive materials, reverse osmosis membranes for desalination and transdermal drug delivery patches. For further information on Nitto kindly visit our website [www.nitto.com](http://www.nitto.com)
