

PRESS RELEASE – FOR IMMEDIATE RELEASE

Hydranautics participates in Aquatech China 2021

The COVID-19 pandemic caused sudden and unprecedented changes to in-person events around the world. Most of the events and trade shows were cancelled in 2020. But now with the arrival of vaccines and new treatments for coronavirus, pulling off a safe and successful event is possible in many countries. After monitoring all aspects of the Covid-19 situation, for the year 2021, at Hydranautics, we have planned to participate in some of the key trade shows globally which also includes the upcoming Aquatech China 2021. Although the pandemic prompted us to exploit new ways to interact with our clients, but we truly missed face-to-face meetings with our customers and business relations at the tradeshow.

Aquatech China is the largest international water trade show in China for the fields of process, drinking and wastewater. The exhibition serves as the meeting place for all market leaders within the Asian water sector.

Hydranautics – A Nitto Group Company will be exhibiting at Aquatech China, to be held at the National Exhibition and Convention Center, Shanghai from 2 - 4 June 2021. Visit us at our booth number 6.1H 522, where we will be showcasing our latest innovative solutions: PRO series for the wastewater treatment and key applications like Zero Liquid Discharge (ZLD) and Minimum Liquid Discharge (MLD) as well as some of our most admired products/ solutions.

At the booth our specialists will be there to welcome you and answer your questions related to treatment of water and wastewater. Also, our experts will be presenting at AquaStage on 3rd June 2021 on the most effective, economical, and sustainable solutions to achieve ZLD/ MLD.

We will be implementing all safety measures to protect our guests and employees at our booth. And request all the visitors to mask-up, maintain social distancing and abide by the no-handshake rule.

To schedule a meeting with our team at the Aquatech China 2021 or for any further information on our participation, please mail us at qi.huang@nitto.com

See you at Shanghai!

ABOUT HYDRANAUTICS

Hydranautics is a part of the Nitto Group and one of the global leaders in the field of Integrated Membrane Solutions. Hydranautics offers complete membrane solutions like Reverse Osmosis, Nanofiltration, Ultrafiltration, and Microfiltration for Water, Wastewater and Process treatment and applications. Hydranautics membrane-based solutions are currently in use on seven continents throughout the world for diverse applications such as Seawater Desalination, Industrial High-Purity Water, Surface Water Treatment, Wastewater Treatment, Specialty Process Applications etc. Our Global Membrane Division is headquartered in Oceanside, CA, USA and we have 3 state-of-the-art manufacturing sites located in Oceanside – USA, Shiga – Japan and Shanghai – China.
