

**PRESS RELEASE – FOR IMMEDIATE RELEASE**

**You're invited to meet the PROs at the International Water Conference 2022**

Hydranautics is pleased to announce that this year we will be participating at The International Water Conference (IWC), to be held Hilton Orlando - Disney Springs Area Lake Buena Vista, FL from November 6-10, 2022. Visit us at our booth (513 & 515) where we will be showcasing our specialty product range - **PRO series** – the membranes which have made **Water Reclamation, Recycling & Reuse... A Reality!** The elements are specifically designed to treat and reuse water from industrial processes, desalination plants, and municipal wastewater treatment plants.

The IWC presents the latest in scientific advances and practical applications in this field, cutting across a wide range of industries, technologies, and functional areas. It is dedicated to advancing new developments in the treatment, use and reuse of water for industrial and other engineering purposes. Attendees come to learn unbiased details about the latest applications available in the industry, get educated on current technology and hold wide ranging discussions with their peers active in water treatment.

At the booth our team of water experts will be happy to take you through our integrated membrane solutions for water and wastewater treatment.

If you would like to arrange a one-on-one meeting beforehand or need any further information on our participation, please mail us at [lance.johnson@nitto.com](mailto:lance.johnson@nitto.com)

Save the date, come, and visit us in Orlando!

## ABOUT HYDRANAUTICS

Hydranautics is a part of the Nitto Group and one of the global leaders in the field of Integrated Membrane Solutions. Hydranautics offers complete membrane solutions like Reverse Osmosis, Nanofiltration, Ultrafiltration, and Microfiltration for Water, Wastewater and Process treatment and applications. Hydranautics membrane-based solutions are currently in use on seven continents throughout the world for diverse applications such as Seawater Desalination, Industrial High-Purity Water, Surface Water Treatment, Wastewater Treatment, Specialty Process Applications etc. Our Global Membrane Division is headquartered in Oceanside, CA, USA, and we have 3 state-of-the-art manufacturing sites located in Oceanside – USA, Shiga – Japan and Shanghai – China. For further information on Hydranautics kindly visit our website [www.membranes.com](http://www.membranes.com)

## ABOUT NITTO

Nitto is Japan's leading diversified materials manufacturer. Based on four core technologies: adhesion, coating, polymer function control, and polymer analysis & evaluation, Nitto provides customers with various products such as polarizing films for displays, industrial adhesive tapes, reverse osmosis membranes for desalination and transdermal drug delivery patches. Under the brand slogan of "Innovation for Customers", Nitto is contributing to a better life by solving social issues and improving corporate value. For further information on Nitto please visit [www.nitto.com](http://www.nitto.com)
